NEW HAVEN NURSERIES

New Haven, Missouri.

1916

SHOWING PRIVET HEDGE LOOKING TOWARD OFFICE

LOCATION

Sixty-seven miles west of
Saint Louis on the main
line of the Missouri Pac-
ific Railway.

J. BAGBY & SONS COMPANY

R. J. BAGBY, PRESIDENT.

J. L. BAGBY, SECRETARY.

The Way We Do Business With You.

Terms Invariably cash, unless otherwise agreed upon. All orders to be sent C. O. D. must be accompanied with one-fourth the amount in cash. Remit by Money Order, Registered Letter or Bank Draft.

Order Early It is important that you order early. For the benefit of customers who wish to order early but do not care to spare all of the money when the order is sent we will accept such early orders if 10 per cent of the amount is sent with order. We will reserve the stock for you. Balance to be sent when you order the stock shipped.

Directions for Ordering Write name and address plainly. Always state distinctly the size and grades of stock ordered as per the grades given in this list. When named varieties cannot be furnished, we reserve the right to substitute such varieties as will fill the season as near as possible, unless prohibited in the order. Persons unacquainted with different varieties will generally get a much better selection by leaving the assortment to us. Keep a correct copy of the order, so that when the stock arrives you will know exactly whether you get what you have ordered. If we make mistakes, they are accidental, and we wish to right them.

Free Freight or Express On all orders of over \$10.00, accompanied by full remittance, we will prepay the Freight or Express to your R. R. Station, if east of Denver, Colo., and El Paso, Texas. will prepay \$1.10 per 100 pounds to all points west of Denver and El Paso.

On orders amounting to \$25.00 or more at Single, 10 or 100 rates, will pay the freight to any point in the United States.

Prices The prices are for the quantities named, but five, fifty and five hundred will be supplied at ten, hundred and thousand rates, respectively—i. e., five at half the price of ten; fifty at half the price of one hundred, and so on.

Packing All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and our customers' best interest. Everything is correctly labeled.

Our Guarantee The fact that nurserymen, planters and fruit growers of the country have ordered of us year after year, is as good a guarantee as can be given by any other nursery of over forty-four years' standing. But if any mistakes occur we will cheerfully rectify them.

True to Name We use the greatest care possible to have our stock true to name, and should any not prove true, we stand ready to replace it free of charge, or to refund the purchase money, but do not hold ourselves liable for any greater amount than the first cost of stock that may prove not true.

All shipments of trees will be accompanied by Certificate of Inspection of the State Gov't. Entomologist. Good stock, true to name, sold direct to the planter at reasonable prices is our aim.

Our Location Our location is the very best for producing well ripened stock with splendid roots. Our facilities for prompt shipments are first-class and we have special low Express Rates.

Remember that we pay the Freight or Express charges on all orders amounting to \$10.00 as above, and guarantee safe arrival of shipments.

We solicit correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

NEW HAVEN NURSERIES.

(J. BAGBY & SONS COMPANY)

NEW HAVEN, MISSOURI.

"WHAT SHALL I PLANT."

We wish to say that the small-size trees are strictly first-class and well-rooted, and by many will be preferred to the larger sizes. So many ask, "What should I plant in my locality?" that we will here name a few of the popular and profitable sorts for general planting.

APPLES.

Jonathan, Delicious, Mammoth Black Twig, Gano, York Imperial, Winter Banana, Stayman's Winesap, Rome Beauty, Winesap, Grimes' Golden, Maiden Blush, Yellow transparent and Wealthy. This is our Commercial List. Others would add, perhaps, Ben Davis, Arkansas Black, Missouri Pippin, Duchess of Oldenberg, Spitzenberg, etc. All of the above are good, profitable sorts, both for home use and market.

PEACHES.

If you want to market your fruit, avoid planting too many early sorts. Elberta, Salway, Carman, Captain Ede, Crosby, Heath Cling, Chair's Choice, Gold Dust, Foster and Crawford are all profitable for market. Should early sorts be desired, Mayflower, Greensboro, Alexander and Sneed are what you should plant. If for home use, plant general assortment, including above for a succession. The peach tree should have shoots and branches shortened every year or two. The land should be kept in a high state of cultivation.

PEARS.

The fact is more and more apparent that Kieffer and Garber will stay in the lead for profit in the Mississippi Valley states. Duchess, Bartlett, Winter Nelis and Anjou can be profitably planted further west. Koonce is the best early Pear.

CHERRIES.

Early Richmond, Dyehouse, Montmorency, Wragg (Sour), Governor Wood, Elton and Magann (Sweet), do very well and are profitable. For general planting we do not recommend the English Morello.

PLUMS.

Wild Goose (Native), Common Damson, Shrop Damson, German Prune (European), Abundance, Wickson and Burbank (Japanese), are all good bearers and profitable. We consider the Abundance, Wickson and Burbank the best of the well-known Japanese sorts. Black Beauty is the best of all.

Thinning Fruit.

When trees are heavily laden the fruit should be thinned when about one-third grown, else the the fruit will be poor and the trees injured. The necessity for thinning was fully demonstrated during the dry summer of 1913.

Whole Root Trees.

All our Apple, Pear, Peach, Plum and Cherry trees are grown on "whole roots." Our Apples are grafted and planted so that the scion also roots. Don't pay extra prices for "trade marks." We give our customers the very best and we don't ask two prices. A trial order will convince you. In planting our trees you set the best that experienced and skilled labor can produce.

Our Shipments.

Our shipments for Fall 1914 and Spring 1915, consisted of over one million fruit trees, which went to thirty-seven states and territories. A total of about fifty furniture car loads. We are now growing on our premises over two million fruit trees, all clean and healthy; nothing over two years from bud or graft. We do not claim you should plant "Bagby grown or none at all," but we do want to impress on you the fact that there are NONE BETTER.

APPLE TREES.

Our Apples are all grown on Missouri River upland, on well branched whole roots, smooth, clean and well grown in every respect. No better trees can be found anywhere.

	Each	10	100	1000

		York Imperial		

CRAB APPLES — Transcendent. Whitney.

PEACH TREES.

We are the largest growers of Peach Trees in the West and can supply in any quantity—the best up-to-date market sorts. Our Peaches are stocky, nicely headed, smooth, straight bodies, well rooted, on healthy Peach stock and free from any disease. Remember this in comparing prices with other establishments. Freight PAID to Your Station on the conditions mentioned. Over 350,000 sold and shipped to other nurserymen during 1914-15.

Captain Ede

Captain Ede Peach

The Captain Ede originated on farm of Captain Ede in Illinois. Is a splendid yellow free-stone variety. In appearance Captain Ede is very much like Elberta, which it equals in every way, except not quite so large, and is much better quality. Ripens with Elberta or a few days earlier.

About Agents.

We are not employing traveling salesmen to solicit orders, but we shall be pleased to have you get up a club among your neighbors and on club orders amounting to \$25.00 or more at single, ten or hundred rates, we allow 10 per cent additional in stock. On club orders amounting to \$50.00 or more, 20 per cent additional in stock, and on club orders amounting to \$100.00 or more, 25 per cent additional in stock. For instance, \$27.50 worth of orders (at single, ten or hundred rates as may apply on each order) for \$25.00. \$30.00 worth of orders as above for \$50.00, and \$125.00 worth of orders for \$100.00.

We put up each order in a separate package, so that upon receipt of the goods you have only to hand out the different lots as ordered. Many of our best customers buy in large quantities at the lowest rates and distribute in lots as ordered by their neighbors.

We also desire to sell to nurserymen and dealers who buy to sell again, and special prices will be made on carloads or larger quantities than indicated in this list.

REFERENCES—Some of our correspondents have asked us to give them bank references, and we hereby comply, and can also refer to any other local business firm, and to the commercial agency reports.

We also refer to FARMERS' SAVINGS BANK, NEW HAVEN, MO. or to the FIRST NATIONAL BANK, WASHINGTON, MO.

Certificate of Nursery Inspection.

UNIVERSITY OF MISSOURI
AGRICULTURAL EXPERIMENT STATION.

COLUMBIA, MO., JULY 26, 1915.

This is to certify, that in accordance with the Nursery Inspection Act, passed by the Forty-seventh General Assembly, the nursery stock of the New Haven Nurseries, Nursery, grown at New Haven Franklin County, Missouri, was inspected on July 7-8, 1915 by a duly authorized inspector and found apparently free from dangerously injurious insects or plant disease.

Valid until July 1, 1916, unless sooner revoked.

LEONARD HASEMAN,

Entomologist and Chief Inspector.

K. C. SULLIVAN

Deputy Inspector.

We Grow Our Own Stock.

We mail this condensed list of prices to our friends and customers, and will ask that they favor us with their orders as early as practicable. The prices are for the goods at you station, if your order amounts to \$10 or more. We have now growing in our nurseries over two million fruit trees by actual count. All clean and healthy. Entomologist's certificate with each shipment. No San Jose Scale, Yellows or Rosette has been found in this locality.

Shipments to Pacific Coast and Southern States from our frost-proof storage during winter months via Southern Routes.

We are growers of what we sell, having over 500 acres devoted exclusively to the nursery business. Many nurserymen are simply jobbers in the trade, and cannot sell stock with the same certainty of being true to name and free from disease.

Remember that we pay the Freight or Express Charges on all orders amounting to over \$10.00 and guarantee safe arrival of shipments. We solicit correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

You order the Trees—we do the rest. We pay the freight on small orders clubbed together for shipment to one point,
if the amount is \$10.00 or more.
